

Nicholas Heo

Software Engineer

I am a passionate and dedicated software developer with a strong desire to explore the ever-evolving landscape of technology. Over the years, I have honed my skills in JavaScript and Java, enabling me to contribute effectively to projects spanning the entire software stack. I thrive on the challenges of crafting elegant code and solving complex problems. I'm always driven by a relentless curiosity, constantly seeking to improve and grow in my role as a developer.

WORK EXPERIENCE

Full Stack Software Developer

BigBear.ai

09/2024 - Present

Software Engineer Consultant

Deloitte

05/2024 - 09/2024

Staff Software Engineer, Frontend

Dottid

06/2023 - 10/2023

Remote

Achievements/Tasks

- Successfully integrated one of the largest investment management software solutions into our website, earning the prestigious title of "MRI Software Partner of the Year" in 2023.
- Designed and implemented the user interface (UI) for a substantial project using a modern tech stack, including React for frontend development, Recharts.js for data visualization, and Material-UI for user interface components. The focus was on creating an intuitive, visually appealing, and user-friendly interface.
- Optimized entire stack for performance and loading speed, enhancing overall user satisfaction and development time.

Software Engineer

Dottid

11/2021 - 06/2023

Achievements/Tasks

- Boosted user experience & authentication by integrating Google Play & Firebase APIs, launching Dottid's debut Android app.
- Bolstered mobile security via MFA integration, and v6 migration in Firebase.
- Enhanced front-end codebase with TypeScript and GraphQL types, reducing bugs and saving development time.
